

Dear Patient / Representative,

Our records show that you are currently being prescribed a Fostair metered dose inhaler. Local prescribing guidance has been reviewed and as a result we are changing your Fostair inhaler to Luforbec inhaler.

Luforbec contains the same active medications (beclomethasone / formoterol) as Fostair. The dose will not be changed so please continue to use your inhaler as prescribed by your GP. Please continue to use your current Fostair inhaler until it is finished and at your next prescription request, the Luforbec will be issued.

If you have any queries or concerns regarding this letter, please call the PCN on 01702 987800, and a pharmacy team member will be able to speak to you.

For further information, please see below:

[Luforbec \(beclomethasone/formoterol\) Patient Information - Lupin Healthcare Limited](#)

Kind Regards,

Southend East PCN Pharmacy Team.
